

SURGE SUPPORT

GALLAGHER BASSETT

GUIDE. GUARD. GO BEYOND.

Prepare Today, Plan for Tomorrow

The past few weeks has seen adverse weather hit the UK, with the bad weather set to continue many households will be exposed to the extreme conditions. The Gallagher Bassett Technical team is on hand ready to assist when CAT events hit, from our Frontline Teams to our Adjusting and Property Repair Teams, the Gallagher Bassett Technical team has the expert solutions to support you and your customers.

At Gallagher Bassett we have huge experience in supporting clients in these circumstances.

We offer a range of claims and risk management solutions that are **Simply Expert** and totally flexible to manage these bursts of activity. Across our business we have a broad talent base of expertise that is highly motivated and focused with exceptional technical knowledge delivering an instant, professional and cost effective claims handling solution for whatever you need, whenever you need it.

We achieve this ability to instantly respond by the virtue of our Global footprint and by having a core of trained staff who understand the need for agility and flexibility coupled with the need to respond quickly, even for short periods of time.

Whether supporting planned headcount control or an immediate performance issue / goal, Gallagher Bassett are here to help and respond.
